

SAETHER CAPITAL CORP.

Resources

SCC utilizes a broad network of banks and public and private institutions in Europe to meet the needs of its clients.

For clients wishing to achieve a primary or secondary public listing in Europe, SCC strongly recommends that such listing be completed on the Oslo Stock Exchange (Oslo Bourse). The Oslo Bourse has over the past five years proven to be a highly effective market for resource companies, beating its European rival exchanges on parameters such as cost of listing, time to list, trading liquidity and trading multiples. [Click here for more information on the Oslo Bourse](#), or [download a presentation of the exchange](#).

Since 2000, SCC has developed a very close working relationship with premium banks in Europe and has the ability to select the best possible advisor for each individual client.
